# Plant Nanny News

We have stock for spring and great new products

- Be sure to check out the new **Easy Fill Stakes** that can be filled directly with a watering can or hose for indoor, deck, and garden plants.
- Our spring promotion is an exceptional value, but note that you have to get your order in by February 15.

# Improved Control

Our goal is to design and engineer Plant Nanny products to the highest performance standards possible.

One of the challenges we took on is improving daily watering control for customers. This work generated the new patented "Click and Set" Adjustable Plant Nanny stake.\*

## Our watering globes are designed to enhance the beauty of plants.

Every globe is hand blown. The glass formula we use is exceptionally clear which by itself enhances the color of the greenery around it. The pigments we use in our colored globes are produced in New Zealand from a source noted for exceptional quality.

*Due to the pandemic, our supply of globes is limited and will likely sell out in the spring.*
